## Your journey in details

BAAK Aventures (experienced organizer of luxury motorcycle) and Kajarha (experienced on à la carte horseback riding outfitter) are joining forces and know how to concoct an epic 3 days (4 night) journey horseback riding in one of the most preserved French department. La Corrèze is without a doubt one of France's green jewel, with wild stretches of lands, rolling hills countryside, bushy meadows and dense forests so that you can even compare it to the beautiful states of Wyoming or Montana in the USA. And to experience these amazing landscape what's better than doing it riding a horse? Choose your mount between the quarter horses, appaloosas or paint horses raised and trained by Betty Jean from the Haras de Sagiran. Comfort, safety and well being are the staff's top priority to insure an unforgettable experience: you'll ride on comfortable Western saddles, strapped on horse with a stable foot and a thorough training so you can enjoy the views safely from lakes to forests and green rolling hills.

At nightfall, after a full day riding, you won't lay on an inch of foam layer directly on the floor of a camping tent, you'll enjoy the plush mattress of your luxurious bivouac or lovely countryside Inn.

You'll enjoy the tasty cuisine of our chef Anne Cecile as she brings the best out of the local produces available.

And to finish here is something very important: Horseback riding is not there to make your journey shorter but longer with elegance!

The day will end in a beautiful Inn we've selected for your pleasure. Culinary surprises are at the menu I hear!
